THE KANSAS CITY

WEEKLY TIMES

One Dollar a Year

Until March 1, 1894.

The Leading Democratic Paper.

PRESIDENTIAL

CAMPAIGN 1894.

THE TIMES has long been recognized as the leading newspaper of the West. It has special departments for the Farmers, Garden and Stock Interests, well edited, during the year serial stories, written by leading novelists; letters from farmers and stock correspondents, and devote liberal space to its advocacy of equal rights for the producing classes and the proper regulation of game preserves in the West which return a large income, preferring to pay its way and not burden our obligations to monopolies now opposing the producing tax-payers of the Great West.

OUR PLATFORM.—We believe that no man can HONESTLY make fifty million dollars in ten years if he is not a fool. We believe that, if ever we are so reduced, it will be done by robbery and stock watering, doubling, increasing quadrupling the stocks and heads of his railroads and forcing the agricultural products of the West to pay three or four times as much as they should for transportation in order to pay interest on this blooded debt. Who should stop, and then those will labor in罔ment, that other railroad, which is to be brought up?

First—Control the railroad and other public corporations by stringent laws—nothing may tax on the value of their property as evidenced by their books, and based on what they pay in taxes.

Second—Monopolies should be taxed, during the year serial stories, written by leading novelists; letters from farmers and stock correspondents, and devote liberal space to its advocacy of equal rights for the producing classes and the proper regulation of game preserves in the West which return a large income, preferring to pay its way and not burden our obligations to monopolies now opposing the producing tax-payers of the Great West.

Third—High taxes and local option, in proportion to prohibition and education, as being the best way to secure temperance, which we much desire.

Fourth—The restoration of law and order by the law enforcement authorities to prevent and prosecute the guilty.

Fifth—The closing of the Indian Territory to white settlement.

For these and other reforms to demand prompt action in western interests. They should be done immediately, and on these terms it is open to the people of Missouri, Kansas and the New West.

A SPECIAL OFFER:

We have decided to receive subscriptions up to March 1, 1894, at the reduced price of \$1.00 per year, paying postage by airmail.

Living quarters will be provided by mailing for THE TIMES, due date a year later March 1, 1894, after that \$1.00 per year.
